RUMENATE BEEF & SHEEP SERVICES

Rumenate Livestock provides independent Livestock nutrition and animal production consultancy to enhance the performance and profitability of your Beef and Sheep enterprise.

We specialize in providing consultancy to Beef and Sheep enterprises across Australia.

It is our mission to provide “leading livestock solutions for farmers feeding the world”.

SERVICE PACKAGES

Rumenate Livestock Services is committed to helping producers and organisations optimise their Livestock production to achieve profitable outcomes. There are a range of service package options based on the needs of your business. These package options include individual consultation through to customised packages designed to provide you with assistance and advice over a longer period.

INITIAL VISIT CONSULTATION

Rumenate Livestock Services wants to understand your Beef and Sheep enterprise, your specific needs and provides on-farm consultation to deliver customised plans and recommendations that meet your goals & aspirations. These one off activities are charged at a per visit rate at a minimum of 2hrs on-farm.

PHONE CONSULTANCY

Rumenate Livestock Services understands that a farm visit may not be warranted on every occasion, and some advice and technical solutions can be given via the phone. Phone consultancy is charged at an hourly rate.

YEARLY PRODUCER PACKAGES

Rumenate Livestock Services wants to build a strong relationship with your Beef and Sheep production system and ensure you achieve the desired results over a specified time frame. Customised packages are available to suit your needs based on a specified number of farm visits and phone consultancy over the year.

BUSINESS & COMMERCIAL PACKAGES

Rumenate Livestock Services can provide staff training and information sessions to enhance knowledge and skills in animal nutrition and production. With a proven background in public speaking the business can also tailor a presentation or seminar to add value to your event. With a strong background in stockfeed, the business also offers commercial packages in feedmill ration formulation.

NUTRITION

“There are 4 rations fed on every farm: the ration on paper; the ration offered, the ration the animal eats and the ration digested & metabolised” it is our job to formulate these rations & aid in making these transition's as smooth as possible.

- Least cost feed ration formulation
- Commodity sourcing & purchasing advice
- Feed budgeting
- Feeding induction plans
- Intensive feeding programs & design
- Containment feeding plans
- Supplementary feeding programs
- Drought planning
- Pasture nutrition & budgeting
- Feeding management & purchasing advice

PRODUCTION

We understand that each Beef and Sheep production system is unique and strive to achieve your productivity goals from a whole farm perspective. It is important to recognise the resources and constraints of the environment in which the production system operates.

- Key event management (i.e. calving, heifer rearing, lactation, transition)
- Animal health programs (i.e. vaccine, drench)
- Grazing management programs
- Seasonal management
- Metabolic disease management

ANALYSIS

We believe in the value of using data to assist in solving problems and identifying opportunities. The ability to test & generate nutritional analysis allows for greater accuracy of the production system.

- Feed testing and report analysis
- Water quality testing & analysis
- Mycotoxin testing

COMMERCIAL

It is important to enhance knowledge and skills in livestock nutrition and production through training and information sessions. The business can also tailor presentations to add value to your industry event.

- Staff training
- Feedmill ration formulation
- Workshop & conference presentation

SHEEP SERVICES

- Feed ration formulation
- Intensive finishing & containment feed plans
- Containment design & budgeting
- Pregnancy & lactation requirements
- Pre & post weaning management
- Condition scoring assessment
- Stocking capacity & grazing management
- Forage crop management
- Stud & show nutrition
- Stud Ram preparation

BEEF SERVICES

- Feed ration formulation
- Feedlot nutrition & bunk management
- Weight gain & cost of gain budgeting
- Commodity sourcing & purchasing advice
- Export cattle feeding programs
- Pregnancy & lactation requirements
- Pre & post weaning management
- Stud & show nutrition
- Pastoral grazing management
- Forage crop management advice
